About This Week's Program

Founded in 2008, Baseline Solar was started with one truck, a farm workshop, and a dream of deploying renewable energy solutions in Virginia.

Baseline Solar grew from humble beginnings into the statewide solar company that it is today. From two employees to many, and one truck to a fleet, we've continued to offer exceptional solar installation in Virginia.

2023 Rotary International Convention

Rotary will hold its annual convention in Melbourne, Victoria, Australia next week. Rotary members and guests will gather in Australia's second-most-populous city from 27-31 May to Imagine What's Next for Rotary and for themselves.

With electrifying speakers, powerful breakout sessions, and more than 200 booths in the House of Friendship, the convention will offer endless inspiration for the year to come.

Rotary International President Jennifer Jones said the convention will be a chance to both look back and think ahead: to share stories of the past year's triumphs and get excited about new possibilities.

"We are looking forward to welcoming so many of you from across the globe to come and celebrate the great stories of what we've all accomplished together during this year," Jones said. She called for attendees to "imagine transformation," saying, "We transform ourselves from year to year. We don't change – we become better. We're going to celebrate what's next."
